Bread.

The way it ought to be.

Whole grains are good for you.

At Great Harvest, we grind Spring Wheat kernels fresh every day to make our whole wheat flour. And we do mean “whole wheat,” because we keep all three parts of the kernel: the endosperm, the bran, and the wheat germ. All flour starts to lose its nutritional content soon after grinding, so we use our flour within 48 hours. We then bake it to seal in freshness. This is why Great Harvest bread has superior nutritional value.

Five simple things.

There are only five simple ingredients in our whole grain, whole-wheat bread. Five pure ingredients are all it takes: whole-wheat flour, filtered water, fresh yeast, salt, and honey. In fact, we'd say bread is best when you keep it simple. That's bread, the way it *ought* to be.
